

# WORKSHOPS

## TAKING PD TO NEW HEIGHTS

**RiseUp Workshops** are personalized trainings that provide educators with a student-focused learning strategy, resources, and a national community of teachers - all committed to helping every learner realize their individual strengths and confidently own their path to success.

Our continued learning sessions are for **educators of K-12 learners** in environments including — but not limited to — **any school** (public, private, charter, home-based, micro, etc.) as well as any **community initiative** including before- and after-school programs, camps, etc.

## WHAT YOU AND YOUR STAFF CAN EXPECT

- **A DO-FIRST APPROACH** Participants will be on their feet sharing their talents and experiences while doing one (or more) of our 115+ hands-on activities.
- **ACTIONABLE RESULTS** Educators leave with individualized action plans they can put to use immediately, to further their impact on student lives.
- **SUPPORT** Teachers will have access to our support team and catalog of online resources to foster ongoing use of shared tools.

## WHAT EMPOWERED EDUCATORS TELL US

“The students don’t want to return home at dismissal time - because they are having so much fun with Empowered-fueled activities. Empowered is teaching them accountability, responsibility, and agency to say the least.”

**Timothy Buchanon**  
Executive Director, Together Friends Organization, Riverdale, GA

## READY TO ELEVATE YOUR PD? LET’S DO THIS.
