

WORKSHOPS

EVERYBODY WINS WITH BETTER PD

Would you like to shorten your prep. time and boost your impact? Do you want tools and resources that make it easier to offer personalized, hands-on learning experiences to more students?

RiseUp Workshops are for you. Any K-12 educator (regardless of subject or setting) can benefit from this truly different PD program and Empowered's **FREE** teacher resources.

ENJOY TODAY?

Have us lead your next in-school event.
Share this information with your PD lead.

9/10

Participants would suggest RiseUp Workshops to other educators.

CHOOSE YOUR OWN ADVENTURE

We'll work with you to build a customized **half-day** (3-hour) or **full-day** (6-hour) session that meets the needs of you and your staff. Then we send staff on-site, with everything needed for the day, to run your workshop in your space and on your time.

NOT JUST FUN AND GAMES

Workshop participants will explore all of Empowered's no-cost resources including activities, classroom resources, on-demand/virtual training, community, and support. By the end of the day they'll have a plan and all they need to put it into action the next school day.

A DIFFERENT APPROACH

RiseUp Workshops showcase Empowered's principle-based **learning strategy that can be added to any classroom to drive engagement and improve impact**. Teachers are given greater control of their classroom. Students are given greater responsibility for their choices.

A NEW LEVEL OF STRATEGY

Our PD mimics the Empowered Classroom with hands-on activities to get everyone involved and contributing in their own way. Debrief discussions solidify learning, showcase the real-world applicability of the lesson, and offer ways to improve future outcomes.
